The Honorable _____
United States _____

Washington, D.C. 2051_

Dear _____:

I am writing to ask you to draft, sponsor, and help pass legislation to reverse the recent Department of Health and Human Services regulation that mandates that all health insurance policies contain coverage for contraception including sterilization and abortifacients and, further, mandates that employers who provide healthcare coverage purchase such policies.

The HHS regulation, which is to be effective August 1, 2012, violates my religious convictions and removes protections for my rights of conscience. I also believe that it infringes upon my civil rights by forcing me to pay for services that I abhor.

I hope that your legislation will restore religious freedoms, protect rights-of-conscience, and stop the tyranny of this administration.

Thank you for your support.

Sincerely,

Joe X
